

Department of Commerce Business Applications Solution (BAS) Project

BAS Data Driven Approach

The Business Applications Solution (BAS) project is a Department of Commerce modernization initiative to deploy an integrated suite of financial and business management applications in support of the mission.

The Secretary of Commerce identified BAS as one of the top Departmental priorities. The objectives include implementing and integrating a suite of commercial off-the-shelf (COTS) business systems, enterprise data warehouse (EDW) and business intelligence (BI) reporting solution, and system interfaces in a hosted environment. The BAS Project will continue the ongoing emphasis on achieving organizational excellence and outstanding customer service for the Department.

Benefits of BAS

Improved data quality and full data transparency:

- ✓ Centralized, standardized enterprise-wide data and enhanced data analytics and BI

Timely and accurate reporting to internal and external stakeholders:

- ✓ Department-wide system, consolidated EDW, and access for management decision-making

Operational efficiencies and reduced total cost of ownership and risk:

- ✓ Commercial, cloud-based software-as-aService (SaaS) with standardized configurations, single Department instance, streamlined business practices, and enhanced user experience

What's Next

- Project kickoff:
 - May 2020
- Phase I deployment (NOAA, BIS, EDA):
 - Scheduled for October 2022
- Ways to get involved:
 - BAS Project Management Office (PMO)
 - Bureau Points of Contact (POCs)
 - Participation in single configuration discussions and decisions

Who We Are

The Department of Commerce (DOC), Office of the Chief Financial Officer and Assistant Secretary for Administration (CFO/ASA), in collaboration with the Office of the Chief Information Officer (OCIO), is responsible for providing strategic direction, planning and oversight for the DOC's financial and business systems.
